1. The terminal disclaimer filed on September 4, 2003 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of any patent granted on application number 09/695,325 has been reviewed and is accepted. The terminal disclaimer has been recorded.
2. Claims 1-119 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Despite applicants' response, the position is maintained that the reference to compounds containing isocyanate and/or isothiocyanate groups as "polycyanates" is confusing, because polycyanates, by definition, are compounds containing –OCN groups, whereas compounds containing isocyanate or isothiocyanate groups are compounds containing –NCO or –NCS groups. See page 166 of Grant & Hackh's Chemical Dictionary. The respective compounds are distinguished by different structures and different chemistries. Since "polycyanate" has a clearly defined and art recognized meaning, the position is taken that applicants' use of the term is repugnant to the art recognized meaning and introduces an unnecessary degree of ambiguity into the claims. Furthermore, given that "polycyanate" has a clear, defined meaning, it is further unclear if actual cyanate groups are encompassed or excluded by the language. See MPEP 2173.01.

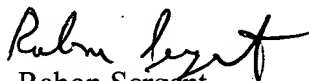

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO

Art Unit: 1711

In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
